News Release

FOR IMMEDIATE USE BEFORE FEBRUARY 5, 2019

**Avantor® to Showcase NuSil™ Brand Medical-Grade
 Silicone Adhesives at MD&M West 2019**

*Company's adhesives and other advanced silicones help medical device manufacturers
 optimize production processes and device performance*

NuSil's customization capabilities provide options for specific device designs and manufacturing process requirements.

Radnor, Pa. (USA) – January 14, 2019 – [Avantor®](#) today announced it will highlight its [NuSil™](#) brand biocompatible [silicone adhesives](#) and other technologies at [MD&M West 2019](#), February 5-7 in Anaheim, Calif. The advanced silicone solutions help medical device manufacturers increase throughput and improve device performance.

The NuSil exhibit will be in **Booth 2305** with information on a full range of high-purity silicone adhesives. Technology experts will be available to share the latest developments and help device manufacturers select the right silicone adhesives for their specific applications. NuSil adhesives include one- and two-part room temperature (RTV) and high temperature vulcanizing

(HTV) formulations. A wide range of NuSil primers is also available to increase adhesion to various substrates.

"With the versatility silicone adhesive formulations provide, NuSil offers a wide range of customization capabilities and product development services," said Anthony Feng, Vice President, Biomaterials. "We collaborate with device manufacturers to understand what is critical to quality then provide solutions that meet the specific requirements of their device and manufacturing processes."

In addition to silicone adhesives, Avantor will highlight several other NuSil [biomaterial](#) solutions including [lubricious silicones](#) and their latest [in situ cure technology](#).
